May - Annual Golf Outing
April Meeting (con’t)

Sheila J. Hayter, P.E. is ASHRAE’s President for the 2018-19 term. Her theme for the Society year is “Building Our New Energy Future.”

“We are at the front end of a major evolutionary change in how energy systems interact. Instead of individual systems—buildings, utilities, the transportation sector, and the industry sector—it’s becoming one system, and buildings are going to play a central role in that new paradigm. Buildings will be where energy is generated, stored, and commandeered, and we will be optimizing energy flow in a different way.”

For more information on Sheila’s ASHRAE experience and her role at the US Department of Energy’s National Renewable Energy Laboratory (NREL) see https://www.ashrae.org/about/leadership/ashrae-president
